

ELK or STAG and FALLOW DEER

STAG

Hunt ID: TX-ElkStagExoticsWDeer-KSBO8RJACO-R3P-A7ULP

**Rifle hunts are 2 days per animal unless you fill early with no guide fees.** Weekend arrival is to check into the lodge, get your clothes, knives, rifle and gear, sight in if needed, then go out to hunt with the outfitter. You can hunt and if you are a real good shot fill the same day. The thick brushy 1000 acre ranch is located about an hour from the Dallas / FT Worth Metro-Plex. These are usually weekend hunts.

We do allow archery and muzzleloader equipment but must advise of our wounding policy because it is more of a liability with primitive weapons than it is modern high-power rifles. In fact in the High power rifles category we require a 30.06 or a rifle with that knock down power at 100 yards or more. Elk and Stag or Red Deer are tough and the country they live in makes it a hunt rather than a shoot. A wounded elk has better than a 50% chance of getting away and not being found. If there is blood, you have gotten your elk even if it doesn't go with you if we can't find it. This is because there is a 95% chance of the elk's wound to eventually get gangrene and the animal to die a slow terrible death and be wasted except for buzzard feed.

This time of the year the antler game animals are being pruned back to make the herd number objective to feed through winter, spring and the dry summer as the antlers grow again. The preferred time to harvest the antlered game is January and February, they have their largest body size and the antlers are still tight. I look for this for my hunters for some great meat hunting prices and even some trophy animals available at the lowest cost time of the year. In addition if you are driving down from a state north of Texas it is always warmer in Texas and instead of wearing a heavy coat and gloves many times a long sleeve shirt is adequate most of the day. It is not Hawaii, but heck you're hunting you have to get some skin off your knuckles some way so you can say it was a rugged hunt. The hunt can be rugged, but the weather and temperatures can be very comfortable.

**MEAT HUNTERS SPECIAL with lodging not included but available for a minimal fee. These special only last as long as the animals that need to be culled to get the count down to the objective. Confirm they are still available before making the reservation and we will honor it.**

Age of the bull (body size) will also be a factor on pricing. This is a guide to use to give you some idea of the cost per animal. The Outfitter/Landowner will also be with you to be certain you have no question on pricing before you pull the trigger.

Hunting is limited to four hunters at a time on the property and the outfitter will take 2 hunters at a time.

## **Tips for Elk Hunting with Us**

- **Wear light clothes** in early Fall, September to October, as the Texas Heat will still be a factor when hunting Elk in the middle of the day. In November thru February, a warm coat is necessary to have but not always used.

- For Elk Hunting, we recommend a rifle caliber of at least 30 calibers, i.e. .300 magnums, 30-06, .308 or 7mm magnum. If you like, we also can loan you an Elk Hunting rifle for only \$25 including ammunition.

- **If you are not as mobile as you once were**, that is not a problem...we will hunt Elk and stag Safari Style from our specialty hunting rigs, and you will still be able to cover most of our ranches and we'll wait for the Elk to come to water holes. We can accommodate Elk hunters of any age; we host multiple 85+ year old Elk hunters each year. We also have youth hunters shooting their first big game. The beauty of The Safari Hunting Style is that the adult, the youth and the guide are all in the same vehicle.

**Our guides can** field dress your Elk, load onto a trailer, and then can either Cape and Quarter your Elk for a Shoulder Mount and pack the meat on ice in your coolers (bring 2 to 3 120 quart Coolers per Elk). Or, we will transport your Elk to a local meat processor to have your Elk fully processed into steaks, sausage, jerky, roasts, etc...our local meat processing plant has been in business for nearly 60 years and process over 100 elk annually...they will ship your Elk meat directly to your door via UPS 2nd Day Air, and it will arrive frozen, solid as a rock.

- Kerr County is the Exotic Hunt Capital of the World, and we have over a dozen professional taxidermists in the area...most of these taxidermists charge from \$1000 to \$1100 for Elk Shoulder mounts, and 25% more for Pedestal Mounts if needed.
